

## Enhance your research with *CINAHL® Plus* and its innovative feature the Plum™ Print, and access the best article-level metrics available.

The convenient Plum Print widget allows *CINAHL Plus* users to track comprehensive metrics, helping them discover the hidden stories of research.

Drawing from the modern metrics measured by Plum™ Analytics, the Plum Print widget can be found on any *CINAHL Plus* content with available metrics. Metrics indicated by the Plum Print are continuously updated and cover articles from over 3,500 of the premier journals found in full text or indexed in *CINAHL Plus* published from 2013 onward.

The Plum Print widget visually changes depending on the metrics found in each of the five categories — usage, captures, mentions, social media and citations — designed to help you make sense of the data.

**USAGE**  
(views, downloads)

**CAPTURES**  
(bookmarks, favorites, readers)

**MENTIONS**  
(Wikipedia, comments, blogs)

**SOCIAL MEDIA**  
(Facebook likes, shares, tweets)
