Full Text Finder is a state-of-the-art service for you to easily locate journals, magazines, newspapers, and eBooks in your library.

Features & Functionality at a Glance

1. **Search box**: Full Text Finder offers a responsive auto-complete for known title searching in your library's holdings.

2. **Breadbox**: Quickly view your current search selections and update your search results by removing selected items.

3. **Browse by Discipline**: Refine searches using subject-like disciplines, increasing the power of the Full Text Finder search.

4. **Limiters**: Refine a search without navigating away from the results page.

5. **Facets**: Filter search results by subject, resource type, publisher and more.

6. **Keep search limiters**: When this checkbox is enabled, you can create another search using the same settings by entering new search terms and clicking Search.

7. **Search within Publication**: Enter terms and locate full text articles from that publication. Automatically enabled for EDS integrations only.

8. **Full Text Access**: Expand Full Text Access to view all of the resources from which you can view full text articles for a result list item.

9. **Sort Results**: Defaulting to relevance, results can also be sorted by title.

Ask your librarian for details.
