

Full Text Finder is a state-of-the-art service for you to easily locate journals, magazines, newspapers, and eBooks in your library.

Features & Functionality at a Glance

Full Text Finder

The screenshot displays the Full Text Finder web interface. At the top, there's a navigation bar with 'New Search' and 'Publications' tabs, and utility links for 'Sign In', 'Folder', 'Preferences', 'Language', 'Help', and 'Exit'. The main search area includes a search box with 'business' entered, a 'Search' button, and a 'Keep search limiters' checkbox. On the left, a 'Refine Results' sidebar contains sections for 'Current Search', 'Browse by Discipline' (with 'Business & Management' selected), 'Limit your results' (with 'Peer Reviewed Journals' selected), 'Subject' (with various categories like 'business (general)', 'management', etc.), and 'Resource Type' (with 'journal' and 'book' selected). The main results area shows 'Search Results: 1 - 20 of 1,647' and a list of five items, each with a 'Full Text Access' button. A 'Search within Publication' box is visible for the second item. At the top right of the results area, there are options for 'Relevance', 'Page Options', and 'Share'.

1. Search box: Full Text Finder offers a responsive auto-complete for known title searching in your library's holdings.

2. Breadbox: Quickly view your current search selections and update your search results by removing selected items.

3. Browse by Discipline: Refine searches using subject-like disciplines, increasing the power of the Full Text Finder search.

4. Limiters: Refine a search without navigating away from the results page.

5. Facets: Filter search results by subject, resource type, publisher and more.

6. Keep search limiters: When this checkbox is enabled, you can create another search using the same settings by entering new search terms and clicking Search.

7. Search within Publication: Enter terms and locate full text articles from that publication. This feature appears for publications that are available from your EBSCO E-journals, or for EDS subscribers, the resources available from within your EDS profile.

8. Full Text Access: Expand Full Text Access to view all of the resources from which you can view full text articles for a result list item.

9. Sort Results: Defaulting to relevance, results can also be sorted by title.

Ask your librarian for details.
