MEDLINE® *with Full Text*

*MEDLINE® with Full Text* is an indispensable tool for medical research providing full text for top-tier medical journals. These top journals cover a wide range of subjects within the biomedical and health fields containing information needed by doctors, nurses, health professionals and researchers engaged in clinical care, public health and health policy development.

In addition to the exceptional quality of the full-text journals found in *MEDLINE with Full Text*, it is indexed with the U.S. National Library of Medicine's, Medical Subject Headings (MeSH) to aid users in effectively searching for and retrieving information.

Additional Features:

- **Provides an easy-to-use interface** with basic and advanced search features and searchable cited references
- Provides full text for over **1,300 medical journals**
- **Full-text coverage dating back to 1949**
- Searchable citations from **over 5,200 current biomedical journals** included in *MEDLINE®*

Searching MEDLINE with Full Text

1 Keyword Search
Enter a keyword or phrase to search

2 Suggest Subject Terms
Search MeSH Headings

3 Select a Field to Locate:
- **Author** – or enter AU author's last name, first name
- **Title** – or enter TI and words in the title
- **Other fields such as** – Abstract, Author Affiliation, etc.

4 Apply Search Modes and Expanders

5 Select a Limiter
This can restrict results to Research Articles, Evidence-Based Practice, Age Groups, etc.

Navigating the Results Page

1 Basic Search
Change from the Advanced Search Screen to Basic

2 Advanced Search
Change from the Basic Search Screen to Advanced

3 Search History
Display or hide Search History or Create Alerts

4 Choose Databases
Change the database you are searching or apply additional databases to your searches

5 Help
Access the online User Guide featuring step-by-step instructions

6 Other Result List Functions
a. Limit your results by Source Type
b. Refine your results with Search Options or MeSH Headings
c. Click on available Full Text
d. Mouse over the magnifying glass icon to preview an abstract
e. Use the EBSCOhost folder to print, email or save multiple results at once
