

Access the most current nursing information **EVERYWHERE YOU GO**

Nursing Reference Center™ provides nurses quick and easy access to the information they need to provide the best care possible to their patients.

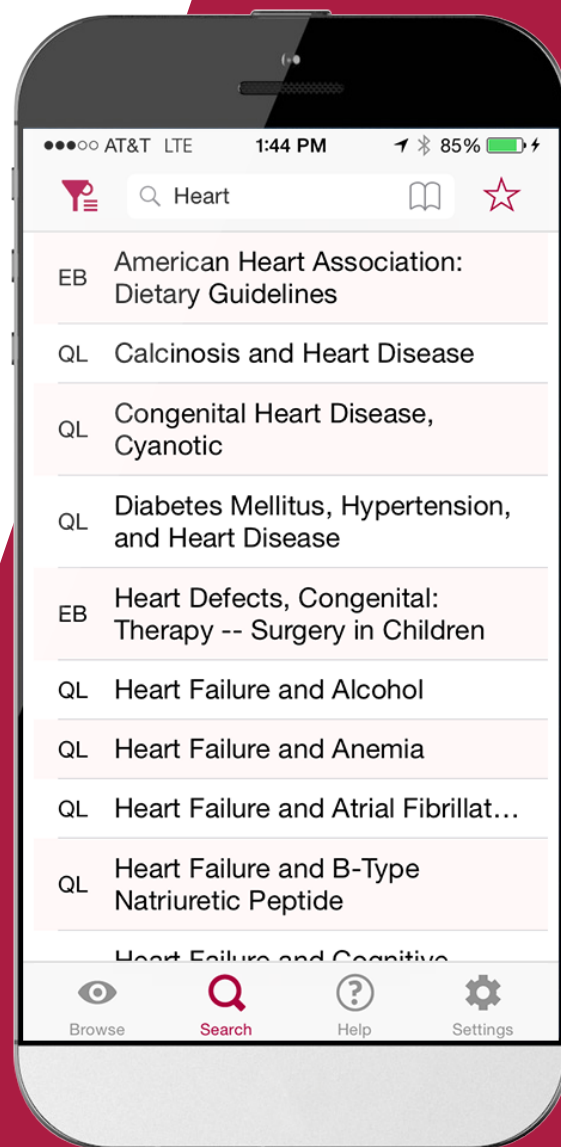

Best of all, users can access all of this content on an iPhone, iPad, or iPad Touch with a free downloadable app.

The Nursing Reference Center iPhone app gives you access to:

- *Nursing Reference Center* content offline
- Information about diseases and conditions
- Evidence-based care sheets
- Content about nursing best practices and skills
- Checklists for determining competency in particular skills
- Robust drug information from F.A Davis' Drug Guide for Nurses

Features that meet your needs:

- Browse a comprehensive list of nursing topics
- Run a keyword search from the find field
- Bookmark favorite topics and searches
- View search history and easily rerun searches
- View help information on the app
- Filter results by category, relevance and date
- Email content right from your device

See reverse side to find out how to download the App now!
